REPORT OF SCHOOL BOARD.

TO THE CITIZENS OF BOW: In making our annual report to you, your committee takes pleasure in being able to say that they believe the schools in town never stood on a firmer basis, for true education never was in a more prosperous condition than it is today.

Your committee has endeavored to secure experienced teachers whenever they could and are glad to note good progress has been made in all of the schools.

During the fall term in the White District some trouble arose between some of the parents and the teacher. Complaint was made and a hearing was asked, which your committee granted. After listening to all complaints and the evidence which they produced, we were of the opinion that no charge had been sustained and the teacher was allowed to continue and finish her school. We believe that if some of the people of the district had labored as hard to co-operate with the teacher for the success of the school as they did to down the teacher, the school would have been a success from the start. Too often the case; trifling matters are carried from the school room to the indulgent parents, who, if they would visit the school, get acquainted with the teacher and work in harmony with her and your board of education, better results would follow. We must all labor for the education and welfare of our boys and girls, who are soon to take the places of the men and women of today. We have maintained seven schools of thirty weeks each for the year. Our text books have not been changed during the year.

We have visited the schools and advised and encouraged both teacher and scholar, whenever and as often as we thought necessary. The schoolhouse in the White District has been quite extensively repaired during the year. The

house at North Bow will soon need to be newly shingled and painted, as it is some fifteen years since it was built. The other houses in town are in pretty good condition.

Respectfully submitted,

JOHN H. BURROUGHS,
ALMOND S. COLBY,
FRANK E. COLBY.
